Presidents Message

Well, it looks like we'll survive another winter here on the lake. This is the time of year when our maintenance department really kicks things into gear. For those members wanting copies of our minutes from Board meetings and committee meetings we will continue to make them available at our monthly Board meeting.

I would like to say that WML has become completely transparent. Our meetings are open to all members. We do not hide anything from our community except when it involves an individual member's name or a legal issue. Our law firm has advised us that this is necessary while the case is ongoing. If it is deemed okay to discuss a legal issue in public we will do so at our monthly Board meeting.

Most importantly, we are doing everything possible to get new members on the Board. On that note, we have decided to create term limits for officers on the Board. This will only work if we can find qualified candidates to step up and volunteer. Over the past several years we have encouraged members of the community to run for director or officer positions. The Board is now younger and I believe more vibrant. I encourage members to attend Board meetings and get involved in committees to better understand how the community governs itself and understand the role of the Board. Hoping for a beautiful spring season.

Preschool Gazette

March has arrived, and with it the last days of winter and hopefully, the first hints of spring. The children will be very busy this month with several new topics to explore. Our first main unit of study will be transportation. The children will explore ways to travel on land, in the air and in water. The younger children will concentrate on cars, trucks, boats and airplanes. The three and five day classes will have an expanded unit that will include submarines and space vehicles. The second half of the month should be very exciting as we begin our study of dinosaurs. The children will learn when dinosaurs lived, what they ate and how we know about them today. We will also learn the names and characteristics of several specific dinosaurs. March would not be complete without celebrating St. Patrick's Day. We will have some fun with leprechauns, shamrocks, and the color green.

EARTH HOUR

Saturday, March 25 • 8:30 - 9:30 pm

Earth hour is a worldwide movement encouraging everyone to shut off all of their non essential lights for one hour to show their commitment to our planet. Although fairly new, starting in 2007, Earth Hour has drastically grown over the years as more people all over the world have responded. Please join this world wide movement. Shut off all of your non essential lights in your home for just one hour on March 25 this year.
