President's Message

I would like to start off by thanking those of you who understood and trusted that the Board of Directors was following professional advice and protecting the community during the time the facilities were closed at the start of the year. It is getting increasingly difficult to find insurance companies willing to insure the vast array of facilities and programs that White Meadow Lake provides to its members. Having a class 1 Dam, it is very difficult to find insurance companies willing to insure it. After much research, our broker found a company in Utah willing to offer a policy and just before Christmas, the company demanded a formal engineer inspection of the dam. We were able to get the company we work with to come out the following week and perform the study and get the report to us on December 29th, however there were questions from the insurance company that needed to be addressed which led to the slight delay and the six-day closing. Our workers' compensation policy was renewed on the 1st and allowed our employees to come to work.

All of us on the board live here, pay dues, and volunteer because we love this community. The board never hides anything from the community and in these rare instances when we need to withhold some information for a period of time, it's only to protect the community either for legal reasons or other issues. It is only done after careful thought and consideration of all options and guidance from our professionals.

It is hurtful for the board members who volunteer many hours to see hateful things posted online by a small percentage of the community. The board meetings are always open where you can come and give your opinions and get an understanding as to how the board operates. After a small bump in the road, I hope and expect another successful year at White Meadow Lake.

Michael Ilardi
